

BOOK AND JOB PRINTING OF ALL DESCRIPTIONS EXECUTED AT THIS OFFICE IN THE BEST MANNER.

The "Star" Office is located on D Street, second door west from 19th, near the junction of 13th Street and Pennsylvania Avenue, nearly opposite to the "Herald" office, late "Evening Herald."

The large circulation of the "Star" makes it the most desirable advertising medium in the District. It has more readers in the cities of Washington, Georgetown, and Alexandria, than all the other Washington dailies combined.

SPRIT OF THE MORNING PRESS.

The *Intelligencer* advocates the enactment of the bill to pay the creditors of the late Republic of Texas, in full, from the treasury of the United States, and copies from the *North American Review* an elaborate article on the condition and commerce of the British North American colonies, which embraces a strong argument in favor of the ratification of the Reciprocity treaty.

The *Union* discusses the position of the Administration upon the Cuba question, saying in the course of its remarks on this subject: "The simple difference between the policy of the government and the scheme of the filibusters is, that the former is national in its objects, while the latter is individually and selfish. In this view of the case, it is easy to understand why the organs of the filibusters are so bitterly denunciatory of the administration. They had hoped that, as President Pierce was understood to regard the acquisition of Cuba in a favorable light, he might be expected to shut his eyes and wear his conscience to the requirements of the laws and the obligations of his official oath, and allow them to organize their expeditions and sail for Cuba without hindrance or opposition. Upon that expectation the scheme is one of the most gigantic individual enterprises that have ever been conceived. An island for which the government would probably give one hundred millions of dollars is the prize which a few thousand of our adventurous citizens, led by a few daring spirits, could conquer in a few months, if the expedition could receive the implied encouragement of the government. But, unfortunately for the bright hopes of these bold adventurers, the administration has taken the ground that the laws of the land denounce such expeditions as criminal, and as the President has taken an oath to 'take care' that these laws be faithfully executed, and acknowledges the obligations of his official oath, the filibusters have been greatly disappointed in the realization of their visions of conquest and glory, and now they are engaged in the sweet revenge which they enjoy in denouncing and maligning the administration."

The same paper further discusses the subject of the health of passengers on emigrant ships with a view, we presume, of inducing Congressional legislation to make that generally better. The *Sentinel* describes and reprobates the new anti-slavery organization, and argues in favor of the enactment of the new Homestead bill.

PERSONAL.

A Liverpool correspondent of the *New York Herald*, under date of July 12, furnishes the following "exclusive intelligence" to his Stannic majesty: "The latest news is, that a hostile meeting is expected to take place before many hours from them. The quarrel, it seems, grows out of a charge made by Mr. Van Buren last autumn, at Tammany Hall. Some place on the continent will probably be chosen as the ground. It is known to Mr. Sickles' friends to have been his purpose not to let the speech in question pass without a fight or an apology, and as he is known to be game to the bone, Van Buren will have to make the *amende honorable*, or fight, or else go home. Look out for the items by the next steamer."

The following is an extract from the "savage speech" alluded to above: "In 1849, we not only lost Sickles, but some respectable black men, who quitted us on the ground that we were not a nation (Roar of laughter). If you look to one of the numbers of the *Herald*, in November, 1849, you will find George T. Downing talking in this way: 'They served us in the last election to come home with a fight or an apology, and as he is known to be game to the bone, Van Buren will have to make the *amende honorable*, or fight, or else go home. Look out for the items by the next steamer.'"

We are inclined to believe there will be no startling items to receive by the next steamer. A repose of five years has, no doubt, had a soothing effect on both the Prince and Mr. Sickles.

General Nikipolitchyaki has been appointed to the command of the fifth corps of the Russian army. Bringing out such a name as this does not look much like peace.

Commodore Shubrick has left Washington for a few weeks ago at Cape Spring, Virginia.

Among the passengers by the Pacific was Mr. Daniel B. Martin, Chief Engineer of the United States Navy, who went to Europe for the purpose of ascertaining the latest improvements in the machinery of war steamers, with the intention of applying the same to the six steam frigates to be built for the American Navy. Mr. Martin, the puglist, is out in a card in the *New York papers*, denouncing Tom Hyer as a coward. Great excitement exists in consequence among the underground ten thousand, another set to between the bruisers being confidently anticipated.

The Potville (Pa.) papers inform us that the preacher in charge of the First Methodist Church of that city has been charged with drunkenness and indecently exposing his person to two young girls; and that he was compelled to leave the city in order to escape summary punishment.

The Troy *Whig* states that Judge Bronson has lost nearly his entire fortune by the failure of the Empire State Dressing Company.

Nicholson, the comedian, has opened a vaudeville theatre at Niagara Falls.

A letter from Bordeaux, France, dated June 25th, 1854, says: "We had a visit yesterday from the widow of Aaron Burr. Her business here is the marriage of a niece to a gentleman of this name Perry. She gives \$100,000 as a marriage portion, and Mr. Perry, the father of the young man, gives the same amount. Mr. Brown, the U. S. Consul, has been requested to be the trustee of the money. Mrs. Burr is the American lady who created such a sensation at the balls in Paris last winter."

A letter from Seville, Spain, of June 27, says: "The two daughters of General Rosas have just taken the veil at the Convent of the Virgin de la Alqueria, at this place."

We are requested by a friend to say that the *New York Day Book*, formerly *National Whig*, is in a few days to be brought out as a Democratic paper under the editorial charge of Mr. David A. Wright. Mr. Wright has already had considerable experience as a journalist, is a clear and forcible writer, and an earnest supporter of President Pierce, and his Administration.

Dr. John Robins, a well known dentist in Boston, died suddenly on Sunday of cholera morbus.

WASHINGTON NEWS AND GOSSIP.

The Minnesota Railroad Bill Investigation. The select committee to investigate into alleged alterations of the records of the House of Representatives, have been laboring assiduously since they were named by the Speaker. It is understood that they will make more or less very rich developments not long hence. Though it is said to have been brought to light in the course of their investigations, to show that the company who, it is alleged, will be benefited by the alteration improperly made, unless Congress take action to prevent that result, are those who now control the Illinois Central railroad, into the hands of whose directors the alteration is supposed to throw about three millions of dollars worth of property, which the House designed placing in the keeping of the Legislature of the Territory of Minnesota, to be disposed of by that body under due responsibility to their constituents, it is might judge best for the interests of the Territory at large. That is: To be accorded to the company which would take them (the donated lands) to build the road on the line that might be best for the Territory, and on the best terms.

The directors of the proposed road to be benefited by the alteration, are Robert Schuyler, Morris Ketchum, Erasmus Corning, Edward L. Schuyler, (Robert's brother), William Bement, (Ketchum's partner), William P. Burrill, (treasurer of the Illinois Central railroad), R. D. Mason, John M. Forbes of Boston, and John Gardiner, (brother-in-law of John Tyler). The alteration was discovered by the Territorial Secretary, who was fortunately here a day or two since, on a flying visit.

Mr. Letcher, of Virginia, yesterday endeavored to get in a bill to repeal the altered act; but as a single objector was sufficient to rule out his motion, it was not admitted. To-day the rule allowing motions to suspend the rules to be made at any time within ten days of the end of the session continues to operate, and we presume that he will get in his bill under it with little difficulty, so great is the feeling of the House upon the subject. It strikes us, however, that it would be wiser to amend the altered act by a supplemental bill, as simply to carry out the intention of the House in passing the bill aforesaid.

Yesterday, the committee examined Mr. Forney, Clerk of the House, and we are informed, the result was the unanimous conclusion in their minds, that he had no knowledge whatever of the proposed effect of the alteration, and that he consented that it should be made only after hearing that verbal alterations in Senate bills in that condition were not unfrequently made in the same way, by members of the Senate, under the direction of the member having charge of the bill.

The Navy Reform Bill.—The defeat of Mr. Bessie's motion to amend the Navy annual Appropriation bill by appending to the Navy Reform bill, should not be taken as a decision against that measure. It was ruled out of order on the principle which governed the chairman and the Committee of the Whole in ruling out of order the Army Reform bill when moved some days ago as an amendment to the Army Appropriation bill, by Mr. Faulkner. Both these measures did fair to be enacted.

Col. Anthony Kimmell, the Farmer of Ligonore, and the Hon. William T. Hamilton.—In common with our brethren of the press of this region, we have received a circular from the first person named above, exclaiming abusive of Mr. Hamilton. The offense alleged is the failure of the latter to recommend Mr. Kimmell's son for an appointment at West Point, in compliance with his promise so to do; recommending another in his stead. In inquiry, we learn that Mr. Kimmell is an exceedingly eccentric gentleman, by no means averse to seeing his name in the newspapers placing it in there himself as "Col. Anthony Kimmell, the Farmer of Ligonore." The story to Mr. Hamilton's failure to carry out his original promise to Mr. Kimmell is said in Washington to be the fact that, as the appointment was made, another candidate for his nomination appeared, whom he judged to be much more worthy, all things considered, & a favor. This is an excellent reason. If all our public men would have the nerve to do what their conscience tells them to be their duty in such cases, regardless of their former intentions, when not knowing full the facts which should guide their action, much fewer bad appointments of all sorts would be made.

Hard Work.—The House are laboring very hard just now. For some three or four days, they have been disposing of business with great energy and success, having enacted a very large number of bills, including, besides disposing of hundreds of important amendments to general appropriation bills. So far we have not heard that they have passed any thing in their hot haste, of which they may have reason to regret in time to come; but being the danger of crowding the most of the business together to be disposed of in the waning hours of the session.

Fees of U. S. Judicial Officers.—The following decision, recently made by the First Comptroller of the Treasury, is of interest to U. S. Judicial officers generally: Comptroller's Office, July 20, 1854.

It appears by a statement made by L. Q. Washington, Esq., a clerk in this office, having charge of the preliminary proceedings in a certain district, that the United States Commissioner charge for drafting complaints in criminal cases, from fifteen to twenty cents per folio, and the question is submitted, whether under the Act of March 3, 1853, an allowance can be made for writing a complaint, and if so, then the question is asked, what rate of compensation shall be adopted?

It is proper, in preliminary examinations, to require the complainant to write, to have it signed by the complainant, and verified by his oath. It forms a part of the record, and if it sets forth a violation of the law, and is in due legal form, it justifies the Commissioner in issuing a warrant to arrest, and in causing a complaint to be taken. A complaint before the Grand Jury as a witness, by instructions of the Jury or of the District Attorney, but such preparatory to the trial of a criminal case, and calls upon a Commissioner and relates the facts as they are known, or as they are believed by him to exist. In many instances the person may not know whether the act constitutes a crime, or of the consequences of the act, and he is allowed to state the facts as he believes them to be. The Commissioner is the proper person to write the complaint, thereby relieving the complainant from paying costs, that would not be incurred in his favor.

It is approved by February 26, 1853, "to regulate the fees" of judicial officers, and "Commissioners Fees" contains the following sentence: "For issuing a warrant, or writ, or any other process, the same compensation as is allowed to Clerks for like service. Under the head of 'Clerks' is included the following: 'For collecting any return, rule, order, con-

DOINGS IN CONGRESS.

In the Senate, yesterday, after we went to press, the Senate rejected an amendment to the Civil and Diplomatic Appropriation bill, appropriating \$300,000 for the payment of the expenses of the State Government of California, between the dates of the organization and the admission of the said State into the Union.

Mr. Hamlin moved an amendment appropriating the following sums: For custom houses at Ellsworth, Me., \$10,000; Belfast, Me., \$20,000; Gloucester, Mass., \$10,000; Sandusky and Toledo, Ohio, \$10,000; Portland, Me., \$10,000; New Haven, Conn., \$10,000; New York, N.Y., \$10,000; New Orleans, La., \$10,000; St. Louis, Mo., \$10,000; Chicago, Ill., \$10,000; Wheeling, W. Va., \$10,000; St. Paul, Minn., \$10,000; and the following for marine hospitals. At New Orleans, \$248,000. At Detroit, Michigan, \$75,000. At Pensacola, \$20,000. At Burlington, Iowa, \$15,000. At St. Paul, Minn., \$15,000. At Hunter and Toombs, and supported by Messrs. Hamlin and Cass. The bill was then postponed.

After concurring in certain amendments by the House to certain Senate bills, the Senate proceeded to consider ex parte business, and after some time, adjourned.

In the House, yesterday, after we went to press, the House, in Committee of the Whole, (Mr. Fuller in the chair), considered the Navy Appropriation bill, when Mr. Bessie moved the committee in favor of the Navy Reform bill.

Mr. Phelps opposed that bill as being out of order, as an amendment to the Naval general appropriation bill. Mr. Phelps moved an amendment appropriating \$300,000 for increased pay for navy seamen. Mr. Gerrit Smith, of N.Y., moved to amend the said bill by adding a clause saying, that no intoxicating liquor should be provided as a beverage on board U. S. National vessels.

This proposition was debated by the mover and Mr. Smith, of Va., for it, and Messrs. Clingman and Stanton, of Tenn., against it. Mr. Stanton, of Tenn., moved to amend that amendment, by adding to it a provision, forbidding the officers on national vessels to use spirituous liquors upon them, as a beverage. The amendment was agreed to, and the bill was then passed. On motion of Mr. Phelps, an amendment appropriating \$370,000 for expenses of the Japan expedition was adopted.

The committee then rose, and the House adjourned.

PROCEEDINGS OF TO-DAY.

SENATE.—Mr. Hamlin's Custom Houses' amendment was further discussed by Messrs. Bright, Brodhead, Toucey, Stuart, Johnson and Toombs, before the Star went to press.

HOUSE.—Mr. Letcher moved to suspend the rules to enable him to introduce a bill to repeal the Minnesota railroad land donating act, approved June 22, 1854; rules not suspended—yeas 100, nays 60.

The rules were then suspended, and they went into Committee on the Navy Appropriation bill, several amendments to which were duly considered and disposed of.

Having voted to report the said bill back to the committee, and the question arose on agreeing to the amendment, the bill, as reported back from the committee of the whole, many of which were agreed to without a division.

The question was then put on agreeing to the amendment prohibiting the use of spirituous liquors on the ships of the U. S. Navy as a beverage; and it was agreed to—yeas 81, nays 65.

It was next moved to reconsider that vote, and the yeas and nays were taken on the table; upon which the yeas and nays were being called as the *Star* went to press.

PERSONAL COLLISION AT WHEELING, VA.

A difficulty occurred at Wheeling, Va., on Saturday morning, between Dr. Crocraft, the Postmaster of that city and Mr. Bartleson, proprietor of the Times and Gazette, because of articles recently published in that paper, and concerning which a retraction was to appear. Instead of the promised retraction, a threatening and offensive allusion to Dr. Crocraft was made in Saturday's paper.

The parties meeting on that morning, words were had about the matter and blows struck, but without serious injury to either. The case coming up for investigation the Doctor dissembled with witnesses, confessed judgment, and was fined \$20 and costs.

Singular Murder Case.

The Brattleboro' (Vt) Eagle has account of an interesting criminal case, which has just been settled in Orleans county, Vt. Seven or eight years since, a woman named Hannah Parker was arrested, and found guilty of the murder of her infant. The proof of her guilt was conclusive, but upon her trial some exceptions were reserved for the consideration of the Supreme Court, and she was remanded to that court to await their action. In the Supreme Court the case was tried from term to term for six or seven years, and in the meantime while making the jail her headquarters, but having a very wide range of jail yard.

The Supreme Court at the last session reversed the verdict, and the woman was again brought up for trial. The same witnesses were called at this trial as at the former, but failed to relate the facts had faded entirely from their memories. Even the witness to whom the question was made, was unable to testify positively that she admitted her guilt, or conversely "a reasonable doubt" was raised in the minds of the jury, and she was acquitted.

THE FOREIGN IRON MARKET.—The New York Commercial publishes the following extract from a letter received by a commercial house in that city: London, July 11.—The demand for iron continues on an enormous scale in spite of the war, and the aggregate orders are greatly in excess of last year. The price of pig iron is 1,950,000 tons per annum (pig iron)—this may be taken as two thirds of the entire production of Great Britain—the remaining third is only for the United States and other foreign consumption. Under these circumstances, we are rather likely to advance than decline in iron prices.

ESCAPE OF SLAVES.—The Parkersburg News publishes the number and value of the slaves that have escaped from Wood county, Virginia, for the last 15 or 20 years, together with the names of owners, as ascertained by the Commissioner of the Revenue in his recent assessment. The number that absconded is 211—valued at \$131,200.

The Rev. Dr. Plummer, formerly of Richmond, Va., has accepted the chair of "Didactic and Pastoral Theology" in the Western Theological Seminary at Alleghany City, Pa.

NOT A CANDIDATE.—Dr. D. S. Finell, in a letter to the *Clarkeburg* (Va.) Register, declares being a candidate for Congress. He says his name was announced without his authority.

The San Francisco branch mint continues in full operation. The amount of deposits for the fortnight ending June 29, have been, for coinage 9022 ounces, and for assayed bars 27,000 ounces.

RAILROAD SUBSCRIPTION.—The people of Richmond, Va., voted on Monday, in favor of the city council subscribing \$100,000 towards completing that portion of the Central railroad west of Staunton.

Business in every department at the Brooklyn Navy Yard is reported to be almost at a stand, all for want of the annual appropriation.

Mr. E. B. Wilkinson, of Huntsville, Ala., formerly of Philadelphia, died in Paris on the 20th ultimo, a few days after his arrival, of cholera.

Over one hundred and twenty-five millions of acres of public lands have been granted to the new States.

ALEXANDRIA CORRESPONDENCE.

ALEXANDRIA, July 26, 1854.

Weather—Fast Justice—New Hall—Locomotives, &c.

The weather this morning comes in hot again, but Mr. Sord's ardent rays are tempered by a pleasant breeze.

About the fastest piece of justice anywhere in the annals of jurisprudence, is said to have taken place in this city yesterday. The report gives it thus: Yesterday morning, whilst some ladies were purchasing at one of our dry goods houses, a negro woman slave, unperceived, a parcel belonging to one of them. Shortly after the ladies entered the store of Justice Rodgers, and there found the negro with the stolen property in her possession. Complaint having been made, the justice sent for officer Padgett, took the evidence, convicted the negro, and by the time the officer came, she was ready for punishment. A few minutes sufficed to reach the pump and give the required whipping; so that the theft, trial, conviction, and punishment, all took place in half an hour. Fined faster justice than this, and Alexandria will yield the palm.

Our improvement progress space. Dan Gerfield's Hall is nearly completed, and will be ready within its ample dimensions two floors, a vast Hall, a small meeting-room, and six offices, beside the requisite small rooms for the large hall.

Messrs. T. M. McCormick & Co. have fitted up a new room in the second story of Liberty Hall.

Smith & Perkins turned out yesterday another fine locomotive, No. 6, for the Maryland & Annapolis railroad.

Business continues dull, and the health of our people very good.

Singular Case of Insanity Produced by Intemperance.

The following narration, says the San Francisco Journal of July 1, of an extraordinary case of insanity at Angel Island was furnished by Coroner Whaling, who had occasion to visit the island yesterday, and heard the facts as stated by the residents: It seems that a man named Hill, who has lived with his wife on the island for some years, recently picked up a couple of cats from the shore, a part of the cargo of the wrecked ship Santa Fe, since which time, to all appearance, they have subsided almost entirely upon the liquor. The residents of the island have often found both Hill and his wife drunk upon the beach, divested of every particle of clothing, and unless removed from that perilous situation would remain until sobered by the sea.

When sober, they are the most intelligent of men, but when drunk, they are the most stupid of brutes. Hill is a man of a raving mania, who is said to be in a state of nudity. She is often seen peeling up roots and grass, which she devours with the avidity of a brute animal. The husband is at times raving, but his madness does not partake of the ferocious character manifested by the wife.

MISSIONARIES.—The bark *Sultana*, which sailed from Boston, on Monday, had on board the following missionaries: Rev. Mr. Beebe and wife, Rev. Mr. Perkins and wife, Rev. Mr. Vanduyke and wife, and three children, and Miss Mary Goodell. Religious services were held on board previous to sailing.

The unusually large number of ninety-six candidates offered themselves for admission to Harvard College on Monday.

"Uncle Ned" had no hair on the top of his head. In the place where the hair ought to grow.

Butler's previous to the discovery of Lyons' celebrated Katharine, which not only preserves and beautifies, but restores the hair to its natural growth. Only those who will not try it, are troubled with baldness, dandruff, or harsh and unpleasant hair.

From the *Home Journal*, N. Y. "No article ever acquired so rapid celebrity and universal appreciation as Lyons' KATHARINE. To those who have used it (and who has not?) the results are so obvious, as its invigorating and beautifying effects, and agreeable perfume, stamp it an indispensable article of toilet to ladies of all ages."

Sold at the old price of 25 cents, in large bottles, by all dealers, everywhere.

D. S. BARNES, Proprietor, 161 Broadway, N. Y.

THOSE IN WANT OF READY-MADE CLOTHING should be to the *Home Journal*, call at N. Y. Walker & Co's Marble Hall Clothing Emporium where they will find materials of all kinds, colors, and styles, and at prices which cannot fail to induce them to purchase. They have just received an additional quantity of these beautiful and well made Duff Drill Coats, and will be glad to exchange for anything belonging to a gentleman's wardrobe, together with hats and servants' clothing.

LYONS' DRESSING—Carter's Spanish Mixture, as ordered for the dress, and the number of our middle class connected with a disordered state of that organ, is unparalleled.

On the subject of certificates from the highest sources of persons living, and the knowledge of the given of cure effected by Carter's Spanish Mixture. We have only room to refer to the extraordinary cures of Samuel M. Pringle, Esq., the firm of Dr. and Mrs. Morris, Rockwell, Richmond, Va., who were cured by two bottles of Carter's Spanish Mixture. It is only fair to state that the first bottle cured him of the blood, and the second bottle cured him of the skin, and he has since remained well.

THE STEREOGRAPH.—This beautiful instrument, and wonderful method of obtaining pictures, and by the Daguerrotypy, simplified, and put within the reach of general adoption. On viewing the pictures, the eye is made to see the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made to feel the objects as they are, and the soul is made to feel the objects as they are, and the spirit is made to feel the objects as they are, and the body is made to feel the objects as they are, and the mind is made to feel the objects as they are, and the heart is made
